To

Amin-Ul-Mulk Mirza Mahamed Ismail Esq,B.A;C.I.E;O.B.E.,

Dewan of Mysore,

B A N G A L O R E.

Honoured Sir,

Having been apprised of the fact that His Highness The Maharaja would be graciously pleased to visit Chikmagalur in the near future, and in the course of his stay there. he would mark his appreciation of the generous donations given by the leading planters of the Kadur District for the construction and maintenance of Hospitals, by agreeing to lay the foundation of certain buildings in connection therewith, I came to Bangalore about a week ago to request you personally to use your good offices in obtaining His Highness's gracious consent to open the Hospital which I have endowed.

You are perhaps aware that I am practically the very first person in our District. if not in the state, to come forward with a liberal contribution towards the construction and maintenance of a Hospital for women and children - a much-felt local want, at a total cost to me of over Rs.60,000/-; and I may be pardoned if in the light of subsequent events, I am led to infer that my example was chiefly instrumental in stimulating others including one of my cousins, to come forward with similar donations. In these circumstances it would be a source of great honour, pride and satisfaction to me if His Highness could be persuaded by you to personally associate himself with the opening ceremony of our Hospital.

As you are aware, my object in making this endowment was to perpetuate the names of my venerable parents. My father who is nearly 80 years old would cherish and feel gladdened by such a high honour done to our family through the rest of his life.

In this connection I beg to bring to your kind notice that our family is one of the most ancient in the Distr[illegible] with an honourable record of public service. It has also taken a large and leading part in developing the coffee industry round

about

about Chikmagalur; we pay an assessment of about Rs.4000/-to the State. You would therefore be placing us under an immense debt of gratitude if through your instrumentality His Highness graciously agrees to perform the opening ceremony of our hospital and thus signally marks his appreciation of our services in the cause of the public in general and of the promotion of medical relief among the women and children of the malnad in perticular.

In addition to endowing the Hospital I have arranged to purchase and make a gift of an ambulance car in order to more fully equip our Hospital as an up-to-date institution. In my activities in this direction you have been a never failing source of inspiration to me. The practical sympathy and encouragement which I received at your hands at the several stages largely contributed towards the overcoming of the numerous obstacles which came in the way of achieving my object. Having met with nothing but kindness at your hands at all times I could not but confidently hope that there would be no difficulty in the way of achieving the crowning object of my ambition Viz, that His Highness should deign to show his approbation of my work by opening the hospital. I have set on foot very elaborate preparations for the opening ceremony of the Hospital in the full belief that you would assist me in securing the gracious presence of His Highness on the occasion of and participation in the ceremony aforesaid. It was a severe blow to me to learn from your Private Secretary on the two occasions I sought for interviews with you, that I should be content with a mere visit to the institution by His Highness and that you could not do anything more in the matter. This unexpected news has prostrated my aged parents with grief and been a severe shock to their health as they looked forward to the function with eager anticipations and much pride. This disappointment has considerably damped my enthusiasm and made me look small in my own eyes besides lowering me in the estimation of my fellowmen. It is in this attitude of mind, Sir, that I venture to approach you once again with my prayer in the full hope that you will be pleased to

With reference to the telephone message received at 5-20 PM yesterday, I wish to state that it will not be possible to fit up the Maternity Hospital at Chickmgalur, by the 25th instant. As already explained in my D.O.No.G.C. 315-1, dated 31st December 1928, the equipment is not at present available in the Medical Stores, nor would it be possible to get it in time as indents will have to be placed with outside Mysore, particularly, Bombay.
